

## Find a Kindle Book

Using any internet connected computer, navigate to <http://ccc.lib.overdrive.com> to find a Kindle Book. You can place holds on popular books or click "advanced search" (1) to find books you can check out right now.

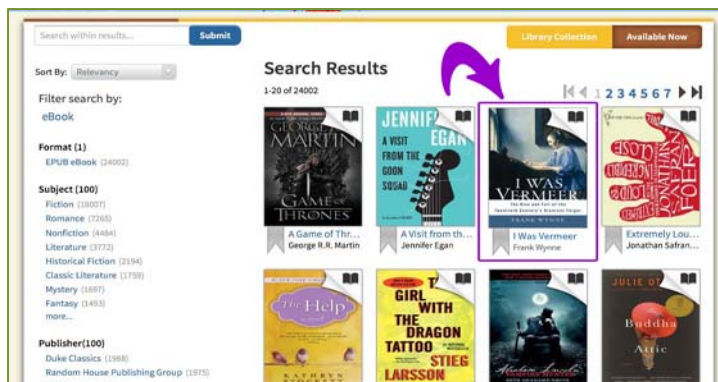

Select the format, tick "Show titles with copies available," and click "Search" (2).

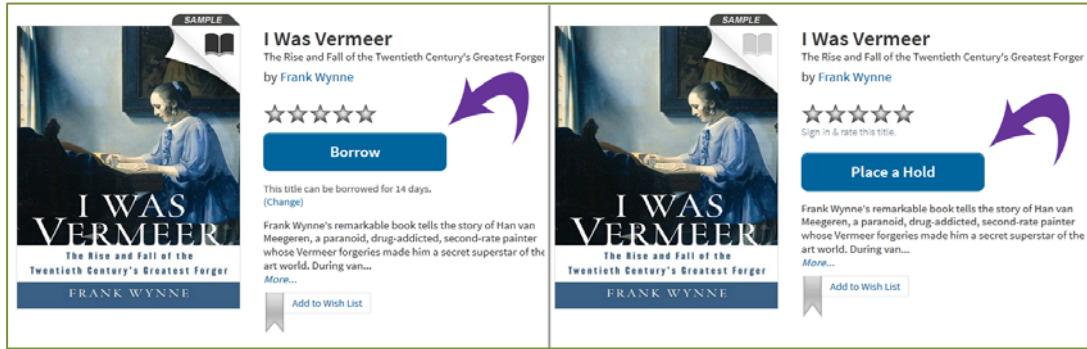

## Checkout a Kindle Book

(3) Click the book jacket image (the dark book icon in the upper right indicates that the ebook is available right now. A greyed-out image indicates there is a holds queue).

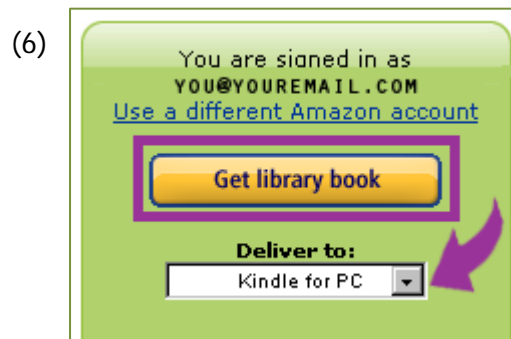

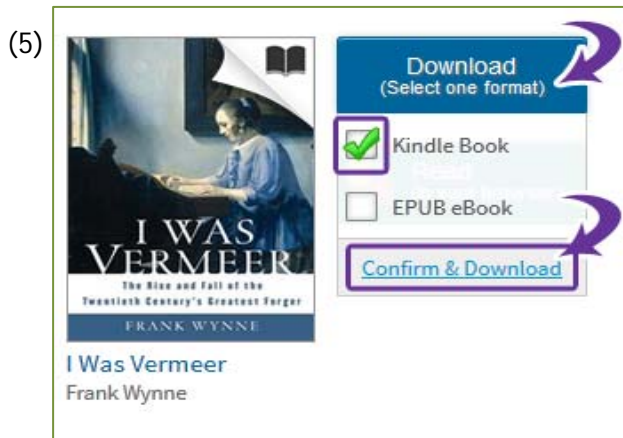

(4) Click "borrow" (or click "place a hold" if there is a wait to borrow the title).

**Download to Kindle**

(5) Click "download," then tick the box for the Kindle format, and click "confirm and download." You will be redirected to Amazon.com where you must sign in to your Amazon.com account. Select your "Deliver to" device or reading app and click "Get library book" (6).

The next time you turn on your Kindle (or Kindle app) and activate the wireless, items download automatically. An active Wi-Fi connection is required for wireless delivery to a Kindle device.

If you do not have an active WiFi connection, you will need to transfer the title to your device via USB. Amazon's instructions for transferring files via USB are at <http://amazon.com/gp/help/customer/display.html?nodeId=200505520>.

You can contact Kindle Support online at [www.amazon.com/gp/help/customer/display.html?nodeId=200127470](http://www.amazon.com/gp/help/customer/display.html?nodeId=200127470) or toll-free at 866-321-8851.

**Return Before Expiration Date**

Go to Manage Your Kindle at <http://amazon.com/gp/digital/fiona/manage> and click "actions" (8). Click "Return this book" (9).
