

Coolpad Surf Mobile Hotspot

Turn on / Off

1. Press and hold the Power Key for 3 seconds to power the device on/off.

Connect to the Mobile HotSpot

To connect your Wi-Fi enabled device to your Mobile Hotspot for internet access, follow these steps:

1. Make sure your Mobile Hotspot is turned on.
2. Select the Wi-Fi Network Name (SSID).
3. Enter the Wi-Fi Password.

Charging Your Mobile Hotspot

1. Connect the microUSB end of the USB cable to the USB port on your device.
2. Connect the other end to the travel adapter.
3. Connect the travel adapter to an electrical outlet to fully charge your device.

Note: You can also charge the device by connecting it to a computer with the USB cable.

Device Layout

USB Port: Use the USB port to charge the device via the USB cable.

LED indicators: Display network signal, Wi-Fi, battery charge, and mobile data status.

Indicator	Description
Network	Displays your current network status. Green light indicates good network connection; yellow light indicates poor network connection; red light indicates no network connection, no SIM card, or no service
Wi-Fi	Indicates when Wi-Fi is connected.
Battery	Displays your current battery status. Solid green light indicates the battery level is 40%-100%, solid yellow light indicates the battery level is 16%-39%, and solid red light indicates the battery level is less than 15%; when the device is charging, the indicator will flash red when the battery level is below 15%, will flash yellow when the battery level is 16%-39%, and will flash green when the battery level is 40%-100%.
Data	Indicates when your data allotment is running out. The indicator will flash red when the data usage is higher than 75% of the monthly data plan set, will flash yellow when the data usage is 51%-75%, and will flash green when the data usage is below 50%. You will need to configure your monthly data plan and tick the "Auto Disconnected" box on Web User Interface first.
