

READ, RENEW, REPEAT

Summer Reading Activity

Craft Stick Loom

Materials:

- 4 craft sticks
- string
- binder clips

Instructions:

Lay four craft sticks in a square so all corners overlap. Use binder clips to secure the corners together. Tie one end of your string near one corner, and wind the string around the opposite side several times to make 4-5 even rows. Tie the other end of the string to a corner, keeping it taut. Using bits of string, paper, or found materials like sticks and leaves to weave in and out of the strings from side to side. Display your completed work of art!
